#### *Materials used:*

*Hip Hip Hooray Kit, Postage punch, Brights glimmer brads, basic metal button (occasions catalogue), Rotary arm/small scallop blade, Just Sayin Stamp set and matching framelit, corner rounder, Tombow glue, Sticky Strip, Soft suede ink, Crumb cake marker, stapler.*

I used 5 envelopes and 7 cards out of this kit for this album. You can use less or more depending on how many pages you want. If you increase the pages, then, you will have to increase the width of the binding to match.

5. Mark the centre of each envelope you plan to make into a pocket and punch using the postage stamp punch.

10. **With the last cut down card**, cut in half and adhere onto the front and back (I added some twine to the front cover first before adhering)

11. I used another card for the tags in the pocket. I just cut my card into quarters. I used a corner rounder.

Here are the photos for the decorating part. All of the diecuts are stickers so it is just a case of sticking them in as you please. Have Fun!
